Trailhead Coordinates:			
Special Equipment	(Example) Good tires are always a plus, 31 inch or larger tires are always a plus. Tire and Body damage is always a possibility. A good spare is required. Bring chains, would hate to have you turned away if you don't have them, I keep mine in the back and just point to them, usually works fine. Tirechain.com has good deals on Chains for all sized tires.		
Trail Description	3N16 is a county road and is rated by the US Department of Forestry as an (Easy Trail) it is a very popular trail in the Big Bear Mountain Area. However, once it snows it transforms into an amazing beautiful snowcapped winter wonderland that can only be experience by the few who are willing to brave the cold and make the trek out to see it. We have been running the winter trails for over ten years, all we have taken on the runs have come back to run it again, so that means it is safe ☺ We have traversed the trail till we hit so much snow we could not go any further, other time pure fresh power 3 feet deep. While other times there was hardly any snow, but lots of ice and Mud to play in.		

RUN ANNOUNCEMENT

Holcomb Valley 3N16 Snow/Mud Run

	So, if you like Snow, lets pray for more of it, if you like Mud, pray for more rain, if it all works out we will have some fresh powder and everyone will have fun.
