Special Equipment	Swaybar disconnects, high ground clearance with limited slip or lockers, 31 inch tires are always a plus. Tire and Body damage is always a possibility. A good spare is required.		
Trail Description	<p>Sugarpine is a simple trail with some shelf trails. Depending upon trail conditions the day of the run, the trail could be a 2 or 3. The trail is very scenic and a nice drive through the national forest.</p> <p>Cleghorn is Easy/moderate (Road 2N47) is fairly smooth most of the way except for a steeper, rougher section going over Cleghorn Mountain. The tougher alternate route varies from fun and moderate. There are bypasses around all the tough sections which make this trail easy.</p> <p>Cleghorn is a unique trail that makes it difficult to give an accurate trail rating. It really depends on the route you choose. It is a solid 2 rated trail with some very serious 4+ Offshoots.</p> <p>This will be the reverse direction of the run that was held February 29, 2020. We will complete the Sugarpine trail and stop for lunch near the 138 and Silverwood Lake. After lunch we will head to the Cleghorn trail head about 2 miles up the 138. The Cleghorn trail ends at the 15 freeway.</p>
