

# Matino Wash (D)

Saturday, November 23, 2024

**Run Date:** November 20, Saturday

**Trail Leaders:** Ray Kleinhuizen

**RSVP:** Yes, to trail leader Ray Kleinhuizen (Cell 714-300-9656) email: [raykaayy@gmail.com](mailto:raykaayy@gmail.com) This run is limited to 8 vehicles that meet the special equipment requirements. Club members have priority until a week before the run.

**Trail Description:** Matino Wash is a hard core 4s4 trail. There are several rocky sections that will test the driver's skill. The trail winds through a narrow canyon with several rocky areas to navigate. The first ½ mile is the most challenging, including a pretty good squeeze. It also has a bunch of off-shoots for optional obstacles, should you choose to do them. Most have different line options with varying degrees of difficulty. At the end we will be heading up to Onyx Summit off Hwy 38 near Big Bear

**Special Equipment Required:** 35 inch tires, front and rear lockers and full skid plates are recommended. A good condition spare tire is required. Good ground clearance and attachment point front and rear recommended.
