A good weekend get away before Thanksgiving. Please plan for a full day with Mazourka Canyon on Saturday, November 22, 2025. Alabama Hills is a great tour through the Movie Road of some of the attractions where old westerns and some modern movies have been filmed. I will go to the local museum after the trail in Lone Pine if there are any interested and with time through the weekend, explore another local trail within the region.

Bring some water, dress warm and be ready for all conditions. Any damage is always possible but conditions are mostly light 4 Wheel Drive. As always with Dirt Devil Runs, low transfer case and 4WD is required. No skid plates or positraction/lockers necessary but always good to have on vehicles. Both days are subject to cancellation due to the unpredictable conditions of mother nature.
