

# East Rubicon to Observation Point

**Run Date:** July 21, 2026

**Trail Leader:** Tim Thomas

**RSVP:** Yes, Trail leader contact info (email address and/or cell number)

**Meet Time:** TBD

**Meet Place:** TBD

**Permits Required:** No

**Trail Description:** After participants from the whole Rubicon Trail complete the entire trail and have a day of rest, any interested are welcome to join from the staging area on the East end of the Rubicon to travel to Observation Point and back. **NO!** Not the whole trail just a loop for an easier but still Rubicon Trail experience. Any others who might be traveling and having vacation in the Tahoe area or near the Rubicon are welcome to join!

**Difficulty:** Difficult

**Special Equipment Required:** At least a minimum of a 33' tire, a good spare tire and tire repair kit/patches, lockers (front and rear), rock sliders, skid plates, and plenty of body armor. Be sure to have either a hard top roof or the proper roll bars. A winch is also required as well as a good tow strap, shackles, and tow points on the vehicle. Please be sure to make sure your vehicle is in great working and mechanical condition. Check and retorque bolts and bring all necessary tools and spare parts. It is recommended to have as many spare tools, spare axles, and any necessary parts along with the Rubicon Trail.
