

The Dirt Devils Digest

Award winning publication.

May 2017

A monthly publication of the Dirt Devils

<http://www.dirtdevils.org/>

Editors Message:

The Dirt Devils needs a well-organized person to be the Membership Coordinator.

Duties:

- Manage and Maintain Club Roster
- New Member Liaison
- Chair/participate in Membership related committees
- Assist in making Membership Recruiting Decisions
- Be the Membership Go To.
- Facilitate Cal4Wheel/ CORVA Membership (New and Renewals)

Contact the pres Mike Wallace

June begins a new membership cycle and yearly dues are due. Please see the treasure at the June 6th meeting to renew your yearly Dirt Devil Membership.

Yearly Dues are \$36.00

We encourage our members to support an off-road organization who lobby for our right to recreate with our 4X4's so if you chose to renew your Cal4Wheel (\$45.00 Yearly) or CORVA (\$30.00 Yearly) Membership you can do so by providing the Treasurer a Separate Check made out Directly to the appropriate Organization (or Both).

Magellan is donating a TRX7 device to be raffled.

DD club meeting July 11th (delayed due to July 4th holiday.)

Raffle tickets are \$5. ea all income goes back into the club

“The Magellan® eXplorist® TRX7 for 4x4 vehicles is the ultimate off-road GPS navigator. The TRX7 is equipped with a 7” hi-definition touchscreen protected by a ruggedized drop and shock resistant IP67 casing, and includes a genuine RAM windshield mount to fit any 4x4 vehicle”

The TRX ap works with Magellan devices and iPADS.

As a club we recently began discussing “The hold harmless agreement” read about the most recent conversation on page 3. I want to thank all run leaders for getting their run announces and run reports out on a timely basis. They are the life blood of our club.

To join straps together, and one that will come apart easily, is to place a rolled-up towel or other cloth item between the loops before they tighten. If something breaks, the towel will fall to the ground instead of becoming a projectile.

[SAC / sierra access coalition](#)

California's State Vehicular Recreation Areas (SVRA).

Did you know that the State Parks Transformation Team is proposing to terminate the Off Highway Motor Vehicle Recreation Division and take all of its programs into State Parks without any plan or input from the public?

Did you know that California has 9 SVRA's operated by the OHMVR Division of State Parks? (Prairie City, Hollister Hills, Carnegie, Hungry Valley, Oceano Dunes, Ocotillo Wells, Heber Dunes, Clay Pit, East Kern-Onyx Ranch)

Did you know that the OHV program, which started in 1972 to Protect Public Lands, Manage OHV trails, provide for Environmental Restoration, provide for Education and Law Enforcement, has never used 1 cent of taxpayer dollars to fund the SVRA's or any of the other OHV programs?

Facts:

In 1971, two Assemblymen, an Off-Roader and an Environmentalist seeing the need for managed OHV recreation got together and wrote the Chappie-Z' Berg Off-Highway Motor Vehicle Law of 1971 which created California's OHV program to be managed by State Parks.

The OHV program funds grants outside of the SVRA's for trail maintenance and development, environmental protection and restoration, law enforcement, and education to non-profits, local Sheriff's, County Parks, Native American Tribes, BLM and Forest Service pumping over \$500,000,000 into public lands and the State economy since 1972.

The State has forcefully Taken \$172,000,000+ from the OHV Trust Fund as "Loans" since 1972.

OHV fuel taxes collected from OHV users are now being Taken, not Loaned, but Taken for State Parks and the General Fund for a total of \$71,000,000 since 2011 including next year's budget.

State Parks is counting on OHV funds to pay for fixing the sad condition of its own Parks through a “one-time” \$31,000,000 diversion of OHV gas taxes in the 2016/17 State budget.

The State has already Taken \$10,000,000 in “one-time” OHV gas tax takes each year since 2011. One time really means ongoing!

The OHV program has always been funded 100% through user paid fees and taxes specifically related to OHV recreation. No general tax dollars have ever been used for this program.

The OHV program budget is made up of Green/Red Sticker Off Highway Vehicle Registration fees, SVRA gate fees and OHV user-paid gas taxes.

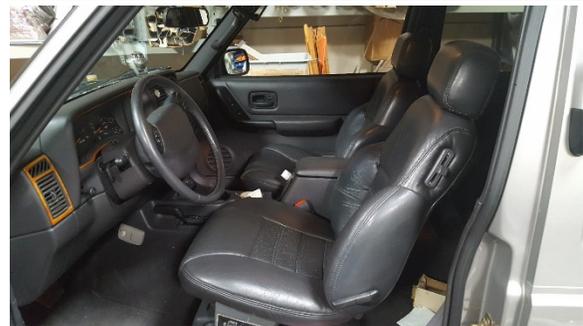

The OHV program actually *pays* State Parks, CHP and DMV a portion of its user funded budget for administrative overhead and services provided.

Combining the OHV program and management of all SVRA’s with other State Parks divisions is exactly the opposite way to fix a broken State Parks Department.

The OHV community and its user paid program are being taken advantage of and not receiving the truth from your public servants.

Now is the time to be heard!

DD hold harmless agreement

Kevin is a practicing attorney. His practice is primarily business and investments. He does contracts and brokerage agreements. He came up with a three-pronged system. There is no right or wrong way to do this. Kevin looked at what Inland Empire has online and it looks okay. There is nothing that is 100% protection but he tried to put something together that he would want to have in his hand if he was in front of a judge. His thoughts are to have all the members at membership or dues time to sign a waiver and release of liability as well as an agreement to indemnify the club and its officers.

Kevin tried to write it as broad as possible to try to give as much protection as possible. It is written to be continuing so that if someone misses a year, it is still good, but the plan is to sign it every year. He made a similar form for guests.

Members would sign once a year and then sign the run record, but guests would have to fill out the form every time. The run record has a sign-in sheet that has a short waiver included for the members to sign. It has provisions stated that the driver will comply with registration, insurance, laws and club rules.

Will need to keep the information somewhere. Kevin is suggesting the hold harmless agreements be scanned digitally and uploaded to a password protected site i.e. Google Drive. They do not have sensitive information such as drivers license and social security numbers, so personal information is not a concern, but basic security is still recommended. It is suggested to keep the digital copies for a long time as there

isn't any reason not keep them. The paper should be kept for a year and not destroyed until after the digital copies are created.

Question 1 should a "legal fund" be created, Kevin does not see the club maintaining the amount of money that would be required. He feels that insurance would be cost prohibitive. The club does not have officer/board insurance. Per Mike, it was researched last year and he called underwriters for our sport and the only thing that was available was for specific events or slip and fall. The specific policy is called D&O and Kevin does not feel that is necessary for a club this size and the amount of money that goes through the club.

Members need to review the documents and bring to a vote next month. Procedure will need to be developed.

Run reports

Heartbreak Ridge, Big Bear/SBNF

April 29, 2017

Last Saturday, Jack & Zoe led a run to Heartbreak Ridge 2N61Y in Big Bear area. It is rated as a moderate trail, with 2 or 3 boulder obstacles. The rest is easy but rocky with a few tippy spots and steep shelves/roads on sections of the trail.

We had a total of 11 vehicles:

1. Jack & Zoe
2. Dave & Linda
3. Mike & Nancy
4. Brian P.
5. Tim DeB.
6. Ray & Karen
7. Chris J.
8. Van R.
9. Andy & Ginger L.
10. Mo O. (Guest)
11. Jim M. (Guest)

9 members and 2 guest.

The day started out being extremely windy. Gusts of up to 45mph were expected, and experienced on the 10 Fwy heading out there.

The group met up initially in Redlands at McDonald's and headed up the mountain. Pulled off the main highway on to

2N01, where we aired down. By this time, the wind had died down for the day. Mo O met us at the trailhead as he was staying in Big Bear.

Headed out on the trail, gorgeous weather. Went up to the top of Heartbreak Ridge to the loop to check out the view. Found a KIA plaque by a local 4 wheel club, commemorating a local fallen soldier. We checked it out, read the bio and left our club card in the geocache. Decided noon was a good time to have lunch, so we ate up. Celebrated Linda's birthday with cookies and sang Happy Birthday. After leaving the lunch area, Mo O split off from the group as he had some family obligations to attend.

The rest looped back around to the old Pontiac sleuth and car. Everyone took their turn parking on it.

Continued on down the trail til we got to the bolder field. Everyone made it through without any issues.

We carried on to the Rose Mine area, and from there to Tip Top Mountain. Some folks hiked to the top for the amazing 360 degree view.

We made it back to the air-up spot off the highway around 5pm and departed from there. In all, an awesome day with friends, some exciting 4 wheeling and great company.

20th HDR Pre-Run:

"Devils Loop Trail" Stoddard Valley OHV area

Trail Leaders:

Ray Kleinhuizen (Cell 714-300-9656) raykaavy@gmail.com,
Danny Ward (714-651-9717) d4lward@sbcglobal.net

Meeting Location: From LA/OC take the 15 Fwy North to Lenwood Rd exit. Turn right on Lenwood Rd., then left on Mercantile Way by the 76 gas station. Pull into the dirt area on the right and look for the Jeeps. This meet spot is suitable for leaving tow vehicles and trailers.

GPS coordinates: N 34° 50.898", W 117° 04.866"

Meeting Time: 8:30 am

The objective is to pre-run the Devils Loop. This is the trail that the Dirt Devils lead for Cal 4 Wheel at the High Desert Roundup (HDR) in the Stoddard Valley OHV area.

Trail description: We will take a sandy wash from the meet spot to the start of the Devils Loop trail. The devils loop is a moderate trail located in the Stoddard Valley OHV area. The trail is considered moderate but has a few difficult sections. Most of these have a by-pass. The difficult sections are rocky with ledges that have steep drop-offs. There is also a steep hill climb and a squeeze. The trail has lots of rocks of all sizes and shapes.

We start the trail at the gate keeper. The gate-keeper is a (Dirt Devil made) rocky section at the beginning of the trail. The point of the gate-keeper is to test drivers and rigs: if you can't make it you should not continue.

After the gate-keeper, we will continue with the rest of the trail. This run will be much like an adopt-a-trail run with some trail marking and maintenance activities along the way.

The return trip to the Lenwood rd. meet spot is via the sandy wash. There are bypasses for all but one of the rocky obstacles.

Trail Rating: Moderate (see Dirt Devils Trail Ratings on our web site.) On a scale from 1 to 10 were 1 is a graded dirt road and 10 is the most difficult hammer trail. Devils Loop is a 6.

Special Equipment Required: 33 inch tires with at least one locker is recommended, Body/wheel damage is possible.

Reminder: Lunch, water, pry bars, shovels, gloves, trash bags camera, chair. etc.

Lunch: We will stop for lunch along the trail.

High Desert Round Up (HDR) May 25 - 29

California 4 Wheel Drive Assoc (Cal 4 Wheel)

runs this annual event. The event includes several trail runs, a raffle, Saturday BBQ dinner, games and loads of fun for all participates. The event is held at the Slash X Cafe on Hwy. 247 south of Barstow in the Stoddard Valley Off-Highway Vehicle Area.

The Dirt Devils are leading the Devils Loop trail on May 27 & 28. This is our support for this important Cal 4 Wheel fund raising event.

The Cal 4 Wheel web site <http://cal4wheel.com/events/hi-desert-round-up>

and registration information. You must be registered for HDR to participate in the May 27& 28th runs.

24th Gold Mountain Big Bear

Trail Leader: Mike Wallace 714-504-8514
Proudpop80@gmail.com RSVP to trail leader.

Meeting Location: Subway, 42124 Big Bear Blvd.
Big Bear, Ca.

Meeting Time: 8:30 Leave for the Trail at 9:00 am.

Vehicle Requirements: CB Radio Capable of CH4, All Dirt Devils Safety Required equipment, Mandatory California Liability Insurance, 33 inch tires, at least one locker, Skid plates and good ground clearance. This trail is not suitable for long wheelbase or stock vehicles. Body Damage may occur.

Communications: Club **REQUIRED** CB Ch4 and **OPTIONAL** HAM Freq (Dirt Devil 1) 146.580 (I will be monitoring the Keller Peak Repeater as well)

GPS: 34.274478,-116.819502

Trail Description: 3N69 (GPS 34.274478,-116.819502) Gold Mountain is Rated by the US Department of Forestry as a **BLACK Diamond (Most Difficult) Trail** it is a very popular trail in the Big Bear Mountain Area and also holds a Jeep Badge of Honor designation from Jeep USA. we will begin at the trailhead and air down. We will ascend the trail and enjoy spectacular views of the Baldwin Lake and the city of Big Bear. This Trail has some challenging Rocky sections, a rock Garden, and steep grades. The Off-Camber sections are sure to test your abilities. Once we reach the top of the Mountain we will break for lunch and social time before continuing for some more challenges.

Time permitting, we may head over to another MYSTERY EXTRA CREDIT TRAIL

Don't Forget to Bring Camera, Chair, Lunch, Water, etc.

Magellan TRX GPS device raffle

27th -30th Bishop (M) run

runs on Sat. and Sun.

Trail Leader: Ray Kleinhuisen (714-300-9656)

raykaavy@gmail.com RSVP to trail leader.

Trail leader is staying at the Holiday Inn express

636 N. Main Street , Bishop, CA 760-8722423

Check the Bishop Chamber Of Commerce web site

<http://www.bishopvisitor.com> for hotel and campground information.

Meeting Location: Park Street next to the baseball field. The meet spot is in downtown Bishop across the street from Erik

Schat's bakery. (Sat&Sun) From Main St (395) turn east on Park Ave. Follow Park Ave a short distance before it turns north on Park Street.

GPS coordinates for meet spot: N 37 22.082' W 118 26.661

Meeting Time: 8:30 am, leave for the trail at 9:00 am (Sat&Sun)

Saturday Trail: Silver/Wyman Canyons.(E) This is a west to east traverse of the White Mountains. Silver Canyon goes straight up the west side of the White Mountains. The trail has steep switchbacks up the Canyon and tops out at 10,000 ft. elev. With great views of the Sierra Nevada Mountains to the west. At the top we will visit the Patriarch Bristlecone Pine groves. We will leave to the east in Wyman canyon. Wyman canyon has several water crossings, a miner's cabin, small cattle ranch, and hopefully a small water fall along the route. This is an easy trail.

Sunday Trail: Coyote Flats is a high plateau 10K elev. above Bishop in the Sierra Nevada Mtn.. The trail has great views of Bishop, and the White mountains to the east. The first part of the trail is steep and near the top there is a short moderate section as the trail passes Sugarloaf peak. We have had trouble in this section on other runs. The secret here is stay away from the soft downhill side of the trail or you will get a cow bell. Once past the moderate section we continue through Coyote Flats to Rocky Bottom and Funnel lakes. I am hoping these lakes will be near full after all the rain and snow this year. We finish the trail on Coyote Flats rd just outside of Bishop

Special Equipment Required:

Saturday: Any stock 4 wheel drive vehicle with low gear and good ground clearance can run this trail.

Sunday: Recommend 33 inch tires, a least one locker, Skid plates and good ground clearance. This trail is not suitable for long wheelbase or stock vehicles.

Reminder to Bring: Camera, Chair, Lunch, Water, etc.

Lunch: We will stop along the trail for lunch each day

Cowbells

The cow bell rules are: Cow bells are awarded from air down to air up. If you get stuck and are unable to move under your own power and need the help of a winch or you get strapped from one of your fellow jeepers then you have earned the privilege of hanging the cow bell from your front bumper. You must leave the cow bell on the front of your rig until another Dirt Devil gets stuck. Then you proudly hand it over. While on the trail, not on the highway to the trail.
