Members:	We had 4 Members attend the run this time.	
Guest:	We had 16 guests. We added 8 additional guests by the end of the day.	
	<p>We had good amount of Snow and some ice on the trail this year. After we had our drivers meeting, we left the trailhead at 9:30AM We head out 3N16 traveled East, we moved at a good pace even with the snow on the ground. Everyone was having a great time and enjoying the day, then after lunch we continued the trail and were making great progress until we hit some heavy ice. We had one rig that ran into a new truck on the trail, no one was hurt but the truck got a nice new dent in the bumper, no damage to the Jeep that hit it and one Rig that did a 180 on the trail as well as someone who was not originally with us that decided to join us after witnessing the 180 by the jeep. So we turned them both around and continued on the trail. On our way out 2N09 we ran into a lot more ice and both Ron and I slide back down the hill about 100 yards, lots of fun. We eventually all made it back out to the pavement to air up and sit in traffic on our way back home.</p> <p>FYI, 12 more inches of snow fell that same night. 😊</p> <p>The trail condition was over all in good shape snow and Ice.</p>
